

## **1. Preparation and Teamwork**

- 1.1 – Our group worked together effectively, dividing tasks fairly and supporting each other.
- 1.2 – My role was to prepare and deliver my sections of the presentation, and I feel I delivered it organized and structured.

## **2. Content**

- 2.1 – Yes, the presentation had a clear structure with an introduction, main points, and conclusion.
- 2.2 – The content was engaging, and on my opinion was easy to follow.

## **3. Delivery**

- 3.1 – I didn't feel confident while presenting.
- 3.2 – I didn't interact with the audience, cause I wasn't sure that I would be able to find an answer, due to not diving deep into the topic, and didn't feel like an expert in this one.
- 3.3 – I struggled slightly with pacing and sometimes rushed certain sentences.

## **4. Visuals**

- 4.1 – We've put slides just for visual appearing, we didn't try to synchronize with the flow.
- 4.2 – I don't think so. But if I'll truly believe that I need it, probably I'll find a better approach to deliver my point of view, and will do my best.

## **5. Language Use**

- 5.1 – It wasn't bad.
- 5.2 – Needs to hone a speech skill.

## **Step 2: Action Plan**

- 1. One thing I did well and will continue doing:
  - I collaborated effectively with my group and stayed organized.
- 2. One area I want to improve:
  - I want to keep improving my accent and talkative skill, reading and talking fluently without mispronunciation.
- 3. Steps I will take to improve:
  - Clear delivery with eye contact.
